REPORT OF THE SELECTMEN

The year of 1973 will be long remembered. In April we narrowly missed a disaster which could have been caused by flooding due to ice jams in the Pemigewasset River. In July and December both the Baker and Pemigewasset rivers overflowed causing extensive damage. The July flood was estimated to have caused $60,000.00 in damages to our highways, but thanks to the Governor and the President declaring Plymouth a disaster area, the town will be reimbursed 100%.

The town completed their reevaluation which brought us up to 100% valuation and although the total cost was considerably over the estimate, the town now has maps locating every property owners property.

As this is written the town does not know what direction we will go in solid waste disposal. (Land fill or incinerator).

We hope to purchase a fire truck this year and have updated supplies to our Fire Department.

Due to the disaster we did not do any street construction but plan to this year.

We have had erected a new Highway Department garage back of the former Boston & Maine Railroad Station and the building is substantially completed.

Thia year we hope to purchase a bookkeeping machine to alleviate the work load of the Selectmen's Office.

The Planning Board has proposed three amendments which the town will vote on in the 1974 Town Meeting. The amendments would bring the agricultural zone more in line with the other zones of the town.

We have had a new heating system installed in the Court House plus the insulation and remodeling of three rooms upstairs. We also intend to have the Tax Collector's and Town Clerk's offices remodeled this year.

PLYMOUTH AIRPORT

The above figures speak for themselves. The airport has not only been self-supporting but has realized a profit through the leasing of part of the facilities to a glider operation.

The sum appropriated by the Town has been used for capital improvements, increasing the length of the runway 250 feet, installing a 3,000 gallon tank and gas pump, setting runway markers and reflectors and installing a flush toilet in the building.

Further improvement which will increase the income substantially are under consideration.

Respectfully submitted
Airport Manager
Henry Fracher

REPORT OF FIRE DEPARTMENT

Year of 1973

TOTAL Runs for Year	113
This is 29 runs over last year	
Breakdown of calls are as follows	
BOX ALARMS	42
SILENT ALARMS	59
OUT OF TOWN	12.

Seven of these calls turned out to be false alarms. Twenty-nine calls were handled by fulltime day crew, no alarm sounded. Type of calls are gas spills to be washed down, smoke investigation, etc.

It has been noted that old electrical equipment is having overheating problems due to low voltage caused by storms and the energy crisis. Old electrical equipment was designed for 120 volts while new appliances have a lower voltage range built into it. This is the one reason older equipment motors tend to overheat due to low voltage.

The call department is up to its full membership, first time in many years. Training shows its effectiveness at a fire scene, these men work very well as a team. Regardless of some remarks made about any fire department when they arrive at a building fire and hold the fire damage to the involved area they have done an excellent fire stop.

You the people of Plymouth support your fire department and we in the fire service support you in time of emergency. If you have a fire or think you have, call, if you have an inspection problem call and we will be there.

Miscellaneous	80

Miscellaneous runs are emergency runs from Sceva Speare Hospital, auto accidents, runs to towns other than with agreed pact, and non- residents moved in town of Plymouth.

Monthly training is held on first Sunday to keep the squad in regular sessions. Other training is attended by men as it becomes available.

Over twenty five percent of the runs are covered by full time firemen while on duty. These are calls made in day time Monday through Friday, this is the time of day when call men are not available.

By state law men on emergency ambulance calls must be licensed and the requirements for license are getting stricter as time goes on. The state board is having hearings on making new rules at this time. I believe that it may be in 1975 it will be required that each man will have to pass a E.M.T. (Emergency Medical Technician) course. This training takes 72 hours of class time plus many hours of study outside. It is very important that we have and keep good competant men because it is yours and my life they are helping to save.

ANNUAL REPORT OF
USDA DONATED FOOD PROGRAM
Year Ending December 31, 1973

Donated or "surplus" food is distributed to low income residents to supplement their diets. In order to become certified to receive food, residents must produce evidence that their incomes and financial assets do not exceed guidelines established by state and federal governments. Food is distributed most frequently on the third Friday evening of each month. Storage and distributation of the food takes place at the Plymouth Congregational Church.

In 1973, 42 families (127 persons) received food at least once. The monthly average was 22 families. An average of 19 food commodities was distributed each month. The following are total year distributions for a sampling of commodities:

butter-764 lbs.; cheese-240 lbs; meat-718 cans;
vegetables-730 cans; and juice/fruit-768 cans.

Local food distribution is made possible only by the work of volunteers. We would like to thank the following for their generous assitance.

Plymouth Congregational Church
PSC students from Mr. Michael Fischler's class
Service Committee of Holderness School
The William Webb family
The Richard Topham family
Albert Reitsma, Jr.

This program is scheduled to end June 30, 1974, as Congress failed to appropriate funds to continue its operation.

PLYMOUTH PUBLIC LIBRARY
ANNUAL REPORT, 1973

To the Trustees:

The Plymouth Public Library is now offering two new services to the community. A 3M "107" copier was purchased by the Young Ladies Library Association, to be used by area residents as well as the library. A nominal fee of 10c a sheet is charged. This gift is in addition to the generous contribution given to the library by the Young Ladies Library Association. The library trustees purchased an adding machine which is currently on a 3 day loan basis.

A series of Children's story hours was presented weekly at the library from January to May by students of the Children's Literature classes at Plymouth State College.

The Children's Summer Reading program, which is a regular feature of the library, was conducted under the capable direction of Mrs. Patricia Topham. Thirty children participated in this program.

Mrs. Patricia Topham has completed two of the eight required Public Library Techniques courses given by the University Extension Service and the State Library. Because of the lack of Federal Funds, these courses may not be given again until the fall of 1974.

Twelve exhibits were displayed at the library, covering a wide range of subjects, such as antiques, vacation travel, hobbies, space and American history.

Visits to the library were made by the Senior Citizens group and Mrs. Arold's nursery school.

During National Library Week, April 11-18, the library presented a marionette show under the direction of Mrs. Elaine Woodall. Approximately 80 children and 20 adults attended the show which was given at the Plymouth Congregational Church.

Two North Country district meetings were held at the library, a book buying meeting in January and a weeding workshop in November.

Due to the lack of space, careful weeding of the book collection has to be done at regular intervals. The discarded books are given to the Hospital Auxiliary for the annual Hospital Fair and to the Rotary Club Book sale.

The librarians attended 5 professional meetings during the year.

Barbara Nims,
Librarian

1973 CIVIL DEFENSE REPORT

The Civil Defense and Aux. Police units were activated a total of four times in 1973 for extended local emergencies. These all involved flooding caused by various conditions such as ice jams in the river, extended periods of heavy rains and flash flooding caused by extremely heavy rain showers. These emergencies alone called for over 750 volunteer manhours with some individuals working around the clock in some cases. My job as Director was made much easier by the unselfish response of the men of these units.

Somehow between these various emergencies we found time to set up an "Emergency Operations Simulation Training Program" that was held at the National Guard Armory during April. This entailed cataloging all the resources, both manpower and material of Plymouth in preparation for the training exercise. This program, set up with the aid of the "Division of Continuing Education of The University of N.H." involved all the Departments of the town in handling every conceivable disaster that Plymouth could be involved in. It proved a tremendous asset as we very shortly had to put into use the emergency procedures that were worked out during the training session. The end result of this program will be a disaster plan tailored for local problems and local resources. If we get a break in real emergencies I would like to continue this program in 1974.

In addition to these duties the normal routine of the Civil Defense and Aux. Police units continued as usual with training sessions and monthly meetings. With the continued co-operation of the townspeople and all the individuals involved in the various activities during the past year, I am looking forward to an equally successful and active year ahead.

Respectfully Submitted;

BRIAN PARRIS, Director

REPORT OF PARK AND RECREATION DIRECTOR

The Park and Recreation Commission develops and maintains recreation areas and facilities and conducts a year-round program of public recreation activities.

The areas and facilities are used by individuals, families, and community groups as well as for activities conducted by the Park and Recreation Commission.

In 1974 thirty four organized activities were provided. Total attendance for these activities was 14,921. Average attendance was 32.2 per session.

Since there is no way to record individual, family, and group use of areas and facilities, provision of statistical information about this aspect of Park and Recreation Commission service isn't possible.

A highlight of the year was hosting of the New Hampshire Special Olympics for the second year in a row. This event involved hundreds of volunteers from the Plymouth area and brought much credit to Plymouth and the Park and Recreation Commission.

Another highlight was the adoption of a cooperative agreement with the Plymouth School Board which resulted in the Park and Recreation Commission employing a full-time Park Foreman and taking over responsibility for maintenance of the school grounds and for scheduling all after school, evening, weekend, and vacation period use of both indoor and outdoor school facilities. We are leading the field in this respect, and other communities in Northern New England are looking to us as leaders in the area of school-based community recreation.

Thanks to the time and effort of many unnamed individuals and groups 1973 has been a satisfying and rewarding year. Progress has continued at a slow, but steady, pace, and we can be proud of the strides Plymouth has made in responding to the recreational needs of its people over the last five or six years.

Looking back over the five and one-half years since my appointment as Park and Recreation Director in 1968 gives me a real sense of accomplishment. I hope all those who have helped make our growth possible realize what a significant contribution they have made in the life of this community.

Respectfully submitted,

William H. Broadrick, Jr.
Park and Recreation Director

INFORMATION BOOTH REPORT

Plymouth, N. H.
September 4, 1973

Board of Selectmen
Town of Plymouth
Plymouth, N. H.

Gentlemen,

The Information Booth was opened June 30, 1973 attended by Miss Hazel Downing and closed September 2, 1973.

Miss Downing answered inquiries from 4,421 cars containing 13,020 persons. This was a decrease of 101 cars and 794 persons from 1972.

Tourists came from all states in the country with the exception of Arkansas, Hawaii, Idaho, Montana, Nevada, Utah and Wyoming. From all Canadian provinces except Alberta, British Columbia, Manitoba and Saskatchewan.

People from France, Bermuda, Denmark, Netherlands, Norway, Germany, Scotland, Ireland, Yugoslavia and Iran, stopped at the booth for information.

Many bicyclists and motorcyclists and hikers also used the booth's services.

The Chamber of Commerce thanks the Town of Plymouth for its aid in supporting the booth all of which help goes to the salary of Miss Downing.

Many compliments are received for the helpfulness and courtesy displayed by Miss Downing. People leave the booth with a very nice impression of Plymouth.

PEMI—BAKER HOME HEALTH AGENCY

ANNUAL REPORT TO THE TOWN OF PLYMOUTH

During the 1973 operating year a total of 1,621 visits were made by the Agency's nurses in Plymouth residences.

In order for the Agency to continue its work among the citizens of Plymouth and the surrounding towns, additional support is required from all participating communities. This year the Agency requests the sum of $3,167.00 from Plymouth. This sum represents $1.00 per capita as compared with a state average of $1.25.

Should you wish to receive a visit from one of the Agency nurses, make your needs known through your own physician.

The Planning Board meets the third Thursday of each month to hear new requests and to pass on requests submitted at previous meetings.

Since last May, the Board has met almost every week in a concerted effort to review, clarify, and bring up to date the local zoning regulations. Some changes are being proposed in the current Town Warrant.

The Board has voted to join the North Country Council, a regional planning agency which will be able to provide professional planning advice to groups in the Plymouth area concerned with local and regional planning.

REPORT of the FOREST FIRE WARDEN and DISTRICT CHIEF

The New Hampshire Forest Fire Service is represented in every town, city or unorganized place in our state by the forest fire warden. Anyone wishing to kindle an outside fire when the ground is not covered with snow must first obtain the written permission of the fire warden. Except for cooking fires, no fire can be kindled between 9:00 A.M. and 5:00 P.M. unless it is a commercial or industrial burn or it is raining. The fire warden is assisted in his work by the District Forest Fire Chief who works for the Department of Resources and Economic Development Forest Fire Service.

Fire prevention was, again this year, the most important part of the Forest Fire Warden's job. Fire statistics show the need with 72% of the fires caused by smoking, debris burning and children. Smokey the Bear is an important prevention tool but he still needs much help from the public. Parents should warn their children of the hazards of playing with matches. Children tend to forget that a lighted match held in their hand is a potential forest fire.

FOREST FIRE RECORD:

	State	District	Town
Fires reported	617	36	6
Acres burned	244	32 1/2	1/2
Acres average size	.395	.9	.826

AUDITORS' REPORT

As Prescribed by law, we have examined the books and records maintained by the Selectmen, Town Treasurer, Town Clerk, Trustees of the Trust Funds, Treasurer of the Library Trustees, Treasurer of the Park and Recreation Commission, Justice of the District Court and Tax Collector.

The records of the individual receipts were found to be correctly cast and properly vouched. We have verified cash balances and reconciled bank statements for such officials as have town business accounts.

We have examined the securities in the Trust Funds. We have inspected the surety bonds of the Town Treasurer, Tax Collector, Town Clerk, Trustees of the Town Trust Funds, Road Agent, Chief of Police, and Clerk of the District Court.

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Plymouth Village Water and Sewer District qualified to Vote in District Affairs:

You are hereby notified to meet at the Auditorium of the Area High School on Thursday, the 7th day of March, next at 7:30 o'clock in the afternoon to act upon the following subjects:

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Treasurer for the ensuing year.

Article 4. To choose Auditors for the ensuing year.

Article 5. To choose a District Commissioner for the ensuing three years.

Article 6. To see what sum of money the District will vote to raise for fire protection for the ensuing year. (Hydrant Rental).

Article 7. To see if the District will vote to authorize the Commissioners to apply, negotiate and do all other things necessary to obtain such Federal, State, or other assistance as may be available for the purpose of updating the report on sewerage and sewage treatment facilities, completing an infiltration/inflow analysis or any other requirements contained in P. L. 92-500 which will qualify the District for Federal Funds.

Article 8. To see if the District will vote to raise and appropriate a sum not to exceed $3000.00, for the purpose of updating the report on sewerage and sewage treatment facilities, completing an infiltration/inflow analysis or any other requirements contained in P. L. 92-500 which will qualify the District for Federal funds, such sum to be appropriated under and in compliance with the provisions of the Municipal Finance Act (Chapter 33 of the New Hampshire Statutes Annotated 1955 and any amendments thereto) or income from Sewer revenue in an amount to be determined by the Commissioners to be in the best interest of the District.

Article 9. To see if the District will vote to authorize the Commissioners to borrow such sums of money as may be necessary to pay debts of the District and to give notes therefore, countersigned by the District Treasurer.

Article 10. To transact any other business that may legally come before said meeting.

Given under our hands and seals this 20th day of February, in the year of our Lord Nineteen hundred and seventy-four.

THE STATE OF NEW HAMPSHIRE

To the inhabitants of the School district in the Town of Plymouth in the county of Grafton and State of New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Lecture Auditorium in the Area High School in said District on Thursday, the fourteenth day of March, 1974, at seven o'clock in the afternoon of said day to act upon the following subjects:

Article 1: To see what sum of money the District will vote to appropriate for the construction and original equipping of a building to be used for educational administration, including office facilities for the Supervisory Union, and determine whether such sum shall be raised by borrowing under the Municipal Finance Act or otherwise and pass any vote relating thereto.

Article 2: To see if the District will vote to authorize the School Board to negotiate and enter into such agreements as may be necessary and incidental to the lease of a portion of the property owned or to be constructed by the District to the Supervisory Union and to authorize the School Board further to execute any and all instruments as may be incidental thereto.

Article 3: To see if the District will vote to authorize the School Board to apply, receive and expend for the projects voted in this warrant any interest earned on proceeds of any serial bonds or notes in connection with such projects.

Article 4: To see if the District will vote to authorize the School Board to make application for, accept and expend on behalf of the District any and all advances, grants-in-aid or other funds for educational purposes as may now or hereafter be forthcoming from any Federal, State, local or private agencies.

Article 5: To hear the reports of agents, auditors and committees or officers chosen and to pass any vote relative thereto.

Article 6: To see what sum of money the District will vote to raise and appropriate for the support of schools for the salaries of school district officials and agents and for the payment of statutory obligations of the District and to authorize the application against such appropriation of such sums as are estimated to be received from State Foundation Aid Fund, together with other income; the School Board to certify to the Selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the Town.

Article 7: To see if the District will establish a contingency fund to meet the costs of unanticipated expense which may arise during the year in an amount not to exceed Five Thousand Dollars ($5,000.00), all in accordance with Revised Statutes Annotated 198:4-b.

Article 8: To see if the District will authorize the School Board to negotiate and execute such tuition contracts as they may deem advisable for non-area School Districts.

Article 9: To see if the District will vote to indemnify and save harmless any officer or employee for loss or damage arising out of any claim, demand, suit or judgment by

reason of negligence or other act resulting in accidental injury to a person or accidental damage to or destruction of property while said officer or said employee is acting in his official capacity or employment pursuant to the provisions of New Hampshire RSA 31:105.

Article 10: To see if the District will vote to authorize the School Board to apply, accept and expend on behalf of the District such financial aid as the District may now be or shall hereafter become entitled to receive from the Federal Disaster Administration and to approve and ratify any and all actions taken by the School Board in connection therewith.

Article 11: To transact such other business which may legally come before said meeting.

Given under our hands and seals this 21st day of February in the year of our Lord nineteen hundred and seventy-four.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

This is my first report as your Superintendent of Schools. Officially I assumed my duties on July 1, 1973.

As you know, Plymouth is the largest of the seven districts comprising Supervisory Union #48. Plymouth is also the receiving district for the AREA High School as well as the newly designated District #5 AREA Vocational Center. Therefore, Plymouth has responsibilities, not just to the Town of Plymouth, but also to the Plymouth area as well. Responding to the needs of students from the area increases the tuition revenues and creates an atmosphere of cooperation sorely needed in a successful operation. The proposed budget attempts to retain successful programs to slightly expand the vocational offerings. The proposed budget also includes some money for an assistant high school principal, a service needed for some time. The cost of almost all items has risen sharply within the past year, and this proposed budget reflects many of those increases.

The energy crisis has caused hardships on almost everyone. The schools are responding to the crisis, and we hope you will bear with us. The next few years will require flexibility on the part of all concerned with schools. However, we will not play "Simon says" with your schools.

The Plymouth Park and Recreation Department has become an intergral part of the total school planning system. The coordination of all activities on school property has been achieved by the fine cooperation of the Park and Recreation Director. The inclusion of a park foreman in both Park and Recreation and School Budgets has added considerably to the proper care of our grounds.

This year we are experimenting with the Town in a joint library venture. Cross referencing of all school and town library books has been accomplished; the school library remains open 3 evenings a week to coincide with the town library hours. The public is encouraged to use either library and make use of the inter-phone system. To date over 150 people have used this service.

The voters of Plymouth are asked to vote on a new Supervisory Union #48 Central Office. The need for a different office has been established by the following facts:

(1) The present office has been flooded 3 times in less than one year
(2) Inadequate parking is in evidence
(3) Important records are subject to fire hazards
(4) The present quarters are not functional as office space

Renting suitable office space has been explored, and the results indicate owning the proposed building would be substantially less expensive over a period of 9 years. The present plan calls for Plymouth to borrow $45,000 for 5 years. At the end of 5 years, the Town of Plymouth would sell the building to the Union for $1.00. This proposal calls for each district in the Union to share in the cost of the building payments and subsequently, the ownership. The proposed building site would be adjacent to the south side of the school parking lot.

It should be noted that the Plymouth School Department is actively pursuing cooperative ventures with Plymouth State College. Having a college in the community certainly offers potential benefits to the students. One recent cooperative venture which has been highly successful is the ESS Science program, a nationally recognized project.

Almost every town can point with pride at some aspect of its community. Hopefully, your school system will warrant that pride.

Respectfully submitted,

N. KENNETH SMITH

Supt. of Schools

EXPLANATION OF SUPERINTENDENT'S AND ASSISTANT SUPERINTENDENT'S SALARY FOR 1972-1973

Chapter 189, Section 48 Revised Statutes Annotated of the State of New Hampshire, requires that the school district annual report show the total amount paid to the Superintendent of Schools as per the following quotation: "Reports. Each superintendent of a supervisory union shall annually prepare a report of the total salary paid to the superintendent, showing in detail the amount paid by the state and each local school district, and their share of same. Said report shall be filed with the school board of each school district involved and shall be included in the annual report of the respective school district as a separate entry. A like report and entry shall be made for each assistant superintendent, teacher consultant, and business administrators, if any is in service in the union."

One-half of the supervisory union expenses is prorated among the several school districts of the union on the basis of adjusted valuations. One-half is prorated on the basis of average daily membership in the school for the previous school year ending June 30th. The salary of $16,500 which was received by the Superintendent of Schools of Supervisory Union #48 during 1972-1973 was made up as follows: $2,500 paid by the State of New Hampshire and $14,000 was prorated among the school districts comprising the Supervisory Union. Allowance for $400 travel within the Union was also prorated as stated above.

The salary of the Assistant Superintendent during 1972-1973 was made up as follows: $2,190 paid by the State of New Hampshire and $12,510 was prorated as stated above. Allowance for $1,500 travel within the Union was also prorated as stated above.

The table below shows the portion of salary and travel charged to each school district.

PLYMOUTH AREA HIGH SCHOOL

PRINCIPAL'S ANNUAL REPORT

I am delighted to present my first annual report as Principal of Plymouth Area High School.

This has been an episodic year during which we have carefully evaluated current efforts in order to decide how best to meet the need of students and the community.

Upon my arrival in July, I committed myself to the following objectives: the involvement of all members of the school community in decision making, the evolution of an atmosphere conducive to the growth of people, the tailoring of ideas to local needs, the fostering of community support, the evaluation of current efforts, the institution of in-service experiences for faculty in order to update methods of learning and teaching, and my setting of a positive example of leadership.

We have made some progress in reaching these objectives and hope to make further headway. Examples of the progress include functioning Faculty and Student Advisory Council, in-service workshops and supervision for teachers, publication of a Student Handbook and the creation of a program budget which places heavy emphasis on providing our graduates with life skills. Plans on the drawing board include a Faculty Handbook, workshops on individualizing instruction, follow-up studies on graduates, a well-defined scheduling procedure, and an Open House.

The program budget, mentioned above, represents a commitment of our educators to offering learning experiences which will educate our graduates for life. We are committed to this program of studies which will both teach life skills to students and meet community needs for well trained citizens and craftsmen.

Our current enrollment is 491 and is projected to reach 598 by 1976.

I thank all members of the community who have and will commit their efforts to this education for life.

Respectfully submitted,

DR. RICHARD A WILGOREN
Principal

ELEMENTARY SCHOOL

PRINCIPAL'S ANNUAL REPORT

The elementary school has had another very successful year. A lot of things are going on, and many exciting things are happening in the classrooms. Parents once again were invited to see some of the "live action" at our annual "Open House" held in April. The faculty was pleased to have so many parents visit us and see their children in their work-a-day world.

We did have some changes in our teaching assignments this year. David Ornato left for a trip around the world, and Eleanor Dalton took over that second grade. Connie Ross went to Texas with her family, and Mimi Ford moved into the fourth grade. The Middle Room seemed like a different place when we added a male teacher, Tim Quinney. Larry Lord was added to the staff to teach the new "Health" course being offered in our school.

A trip to Boston was enjoyed by the Middle Room students (before the energy crisis) the New England Aquarium and the Wax Museum being places which they visited.

Many parents have added a touch of color to our programs by coming in and offering to share some of their experiences with our students.

We have an active student council in the elementary school which contributes in many ways toward making our school a better place in which to live, work and play.

Our emrollment has not fluctuated greatly from last year, the total enrollment hovering around 465. The second grade was the largest grade this year, and we were able to provide an "aide" to work with the second grade teachers. Another "aide" is working with the special resource teacher.

We were very fortunate to be able to add to our staff Mrs. Joanne Annable, a guidance counselor for the elementary school.

The teachers and the administration have worked diligently toward "individualization" in our school. Our main goal is to give each youngster the attention he needs, and to help him realize his full potential.

We want to thank everyone in the community for the wonderful support and cooperation we have had during this past year.

Respectfully submitted,

REPORT OF THE SCHOOL NURSE

The following is a report of the health program for the Plymouth schools for 1973.

Dr. F. D. McIver, school physician, completed physical examinations for 210 pupils, including athletic teams.

On March 15 an immunization clinic was held at school for kindergarten and first grade children. At that time Dr. McIver, assisted by Nena Ouellet, R.N. and Gail Lary, R.N., administered the following vaccines: 8 rubella, 16 measles, 17 Sabin and 6 tetanus-diphtheria.

On March 29 Dr. McIver administered measles vaccine to 62 children in grades 2 thru 6. He was assisted by Gail Lary R.N. and Eileen Mayhew.

Dr. McIver conducted a tuberculin skin test clinic on October 15 for children in Kindergarten and first grade. Linda Cowan, R.N. and Janet Moorhead, R.N. assisted in the administration of the tine test to 43 children. All these tests were negative.

On October 18 Dr. McIver again assisted by L. Cowan, R.N. and J. Moorhead, R.N. administered the following vaccines to children of kindergarten and first grade: 4 measles, 6 rubella, 12 Sabin and 11 diphtheria-tetanus.

Records of these immunizations were sent to parents and physicians following the clinics.

On April 11 two films, distributed by the American Cancer Society were shown to abourt 50 senior girls. Dr. Emily Crane answered questions following the films.

In November Constance Martin, R.N., of the N.H. Lung Association, administered tuberculin skin tests to 63 members of the faculty and staff of the Plymouth Schools. Reactors were followed by Miss Martin and appropriate suggestions were made by her.

The Plymouth Lions Club furnished glasses and paid for eye examination for one child. This club also sponsored a pre-school vision and hearing screening program for children in the Plymouth area. On March 3rd 142 four, five, and six year old children were screened for hearing defects and 119 for vision defects. Referrals for further testing and treatment were made when necessary.

The Matching Fund Dental Health Program is supervised by Rev. P. V. George. During 1973 work for this program was done by Dr. Alan Naves.

The Salvation Army fund paid for an X-ray and purchased a pair of boots and shoes for one pupil.

RECOMMENDATIONS

Our audit included a brief study of the existing accounting procedures of the Plymouth School District. The results of the system, not personnel, revealed that the system is inadequate, inefficient, not current, extremely cumbersome with much duplication, particularly considering the large volume of both transactions and dollars that is now being handled. Those presently managing these school funds do not have available to them enough information on a timely basis to constantly monitor and control operating revenues and costs.

We strongly recommend the use of an improved accounting system combined with the installation of a modern accounting machine (not computer), in order to eliminate the substantial amount of **duplication** and expensive manual computations. The system should provide up-to-date automatically summarized financial data that is part of the daily operational routine of the system.

Other recommendations, not necessarily in order of their importance, are as follows:

1. Prepare an accounting manual in order to establish prescribed procedures and promote consistency.

2. Establish an adequate Contingency Fund that would provide for unbudgeted emergency expenditures.

3. Use pre-numbered, multicopy purchase orders for all school expenditures, except payroll and petty cash payments. Applicable fiscal year should be indicated on purchase orders.

4. Invoices, prior to being paid, should 1) have copy of approved purchase order attached, 2) have some stamp with initails indicating, a) account to be charged (if not already on purchase order), b) that material has been received or services have been performed, c) that prices, extensions, footings and discounts have been checked and d) that the invoice has been approved for payment. This procedure insures that certain required accounting functions will have been accomplished, and affixes responsibility for same.

5. Duplicate invoices should be destroyed or so marked in large bold letters by a rubber stamp. This procedure will avoid possible double payment.

6. Invoices and supporting documents should be effectively cancelled, preferably with a large perforation. This procedure will preclude possible resubmission for payment.

7. Deposit all receipts daily, intact. Keep petty cash transactions, and consequently deep petty cash fund at a minimum balance.

8. Keep blank checks and any checkwriter locked up when not in use. Account for all blank checks.

9. Prepare monthly financial reports that would 1) compare revenue received to total revenue estimated; 2) compare expenses (paid or encumbered by purchase order placed) to budget appropriation and show resulting unencumbered balance.

You understand that an audit and brief study for suggested improvements in the accounting system, cannot be relied upon to disclose defalcations and other irregularities of the same general nature; accordingly, we do not assume responsibility for their detection. The best protection consistent with minimum expense is provided by the constant attention of the School Board members toward improvements in the accounting system and by carrying adequate fidelity bond coverage.

You understand that our comments deal exclusively with accounting procedures and techniques, and should not be regarded as reflecting upon the integrity of anyone in your organization. We received excellent cooperation from all concerned.

NOTE TO CONSTRUCTION ACCOUNT

The following is abstracted from Attorney Walter L. Murphy's letter of September 7, 1973:

"The only item of significance presently in litigation is the result of a Demand for Arbitration dated November 28, 1972 and filed with American Arbitration Association on November 30, 1972 by Curran-Cossette Construction Corporation against the District for alleged damages arising out of a contract in which Curran-Cossette was contractor and the District was owner, the contract being dated April 9, 1969.

"The substance of the contractor's claim is that there are monies owed to them under the contract in the amount of $24,246.00, and that, in addition, they are entitled to liquidated damages retained by the District, as defined by the contract, in the amount of $11,600.00.

"It is the District's claim, in turn, that the liquidated damages which were retained by the School District in accordance with the terms of the contract were justifiably withheld as the contractors failed to meet the date of substantial completion required by the contract. As for the money allegedly due the contractor, it is the District's position that the work represented by the monies was either not performed at all or was performed inan unworkmanlike manner and that therefore no payment is due.

"There is, however, no argument but that there is due from the District to the Contractor the sum of $6,400.00, which represents work performed by the Contractor at the District's request subsequent to the date of substantial completion, and the reason that this sum has not been paid is that the same has been trusteed in a matter presently in litigation between the Contractor and one of its subcontractors.

"Upon receipt of the Demand for Arbitration, the School District took steps to enjoin Curran-Cossette from arbitrating the matter of liquidated damages by filing the appropriate pleadings in Grafton County Superior Court and this matter is still pending. Upon our filing of the Petition for Injunction, Curran-Cossette, through its counsel, filed a Motion to Dismiss the Petition, which, after hearing, was denied. We are now awaiting a hearing on the merits of our request for injunctive relief.

"If we are successful in obtaining a permanent injuction against Curran-Cossette which is sought on the basis that the liquidated damages were imposed over two years prior to the demand for arbitration on that issue, the only item which will be considered by the American Arbitration Association is the amount that might be due Curran-Cossette for work performed under the contract. If unsuccessful, both issues involving a total of $35,846.00 will be arbitrated."

RE: Audit of High School Activity Fund.

Gentlemen:

As per your request, we attempted to make an audit of the High School Activity Fund but missing records and supporting documents make it impossible for us to successfully complete the audit.

As then subsequently requested, we attemped to assemble from the existing information a summary of the financial activities of the fund since its inception. Again, the records were not complete in order for us to accomplish this task.

Since the fund's inception, that appears to be September 26, 1956, to June 30, 1964, there were no books, no bank statements, cancelled checks, no receipt books, no invoices, other supporting documents, or minutes of meetings authorizing transactions found. A copy of the limited amount of savings account activity was obtained from the savings bank.

For the period June 30, 1964, to June 30, 1968, there **appears** to be a well maintained journal that was tied into the combined balance of the checking and savings accounts. However, no bank statements, cancelled checks, receipt books, invoices, other supporting documentation or minutes of meetings were found. Again, a copy of the limited activity in the savings account was obtained from the savings bank.

For the period June 30, 1968, to June 30, 1973, an apparently unproven journal was maintained. Receipt books were established and used during this period. However, not all bank statements and cancelled checks could be located, nor could copies of those missing be obtained from the bank. Invoices or other supporting documents and minutes of any meetings were missing.

No annual financial summaries or annual reports of the fund were found. Some informal reports of the annual carnival were found.

From the information that was located it appears that this fund increased to its present size from the following sources:

1) remaining balance of classes that graduated,

2) remaining balance of activity fees and income from sports events over expenses related thereto,

3) commissions from sale of rings and photographs,

4) profits of school store (since discontinued),

5) sales of equipment,

6) rentals of caps and gowns,

7) profits from annual carnival

8) other enterprising ventures,

9) and a significant amount of interest.

These funds were used for scholarships and school equipment.

We believe you understand, however, that an examination of the type we have made while enabling us to suggest improvements in the systems of internal control, cannot b relied upon to disclose defalcations and other irregularities of the same general nature and that accordingly we do not assume responsibility for their detection. The bes protection consistent with minimum expense is provided by the constant attention o management toward improvements in the internal control system and by carrying o adequate fidelity bond coverage.

As a result of our work , we have a number of suggestions for improvement in handlin these funds in the future.

1) Retain all records.

2) Prenumber receipts and account for the numerical sequence thereof.

3) Obtain fidelity bond coverage on all persons handling these funds.

4) Establish a board responsible for handling these funds and keep detailed minutes of their meetings.

5) Do not participate in any unrelated business activities that could jeopardize any tax-exempt status and require timely filing of involved tax returns and possible payment of taxes.

6) Ascertain tax status of scholarships granted and proper handling of those funds.

7) Have the following functions performed by different people:
 a) handle receipts
 b) handle disbursements - all by check
 c) maintain books.

8) Periodically reconcile book to checking and savings account (if any).

9) Deposit receipts daily.

10) Prepare yearly budget prior to beginning of school year.

11) Have fund periodically audited.

ou understand, of course, that our comments deal **exclusively** with accounting rocedures and techniques, and should not be regarded as reflecting upon the integrity f anyone in your organization. After you have had an opportunity to review our com- ients, we shall be pleased to discuss any questions you may have.

School Board
Plymouth School District
Plymouth, New Hampshire 03264

Gentlemen:

We have examined the statements of financial position of the Plymouth School District - General Fund, as at June 30, 1973, and the results of budget operations for the fiscal year then ended. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and other audit procedures as we considered necessary in the circumstances.

This report does not include the Student Activities Account, Scholarship Fund and Principal's Fund as a separate report has been issued previously by this office; separate schedules on certain federal projects as those books have not yet been brought up to date; and a separate schedule on the hot lunch program as those records were partially destroyed in a break during the fiscal year.

Although the general accounting system of the Plymouth School District is on the cash basis, adjustments have been made for the beginning and ending accounts receivable and payable to more accurately report the results of operations for the fiscal year ended June 30, 1973. Normally, the books of the school district are held open after year end in order to include receipts and disbursements applicable to that prior year. When the books are not held open then it is our opinion that monies due and unpaid invoices for that year have to be considered in order to properly reflect the financial operations for that fiscal year.

The supsequent year's budget is frequently based also on the results of the prior year's operations. If unpaid bills of the prior year have not been considered or revenue has been overstated, a deficit situation that could increase significantly each year is almost certain to occur.

In our opinion, the accompanying financial statements present fairly the financial position of the Plymouth School District - General Fund at June 30, 1973, and the results of operations for the year then ended, in conformity with generally accepted governmental accounting principals applied in the State of New Hampshire.

Respectfully submitted,
DAVID L. CONNORS, C.P.A.
